Please review and understand the daily backcountry report provided by Bridger-Teton Avalanche Center and posted at all backcountry gates: www.jhavalanche.org/viewTeton. WHAT'S NEW IN TETON VILLAGE

GLOW FESTIVAL

GLOW Festival takes place in Teton Village at the base of the world famous Jackson Hole Mountain Resort from late December 2018 through mid-February 2019. GLOW is an exhibit of artworks inspired by the unique phenomena of the Greater Yellowstone Ecosystem that employ light as a medium to attract people out into public spaces at night. The Greater Yellowstone Ecosystem (GYE) with its megafauna, calderas, hot springs, and dramatic vistas spark our sense of wonder and our desire to explore and understand these phenomena. Artists will collaborate with community groups to design one night of multi-disciplinary festivities curated to provide an immersive participant experience.

SOLITUDE STATION

Solitude Station is the latest offering in Jackson Hole's continued devotion to skier progression and the family experience. The newest on-mountain center for learning and growing at JHMR for kids and adults alike, Solitude is located a short 2 minute gondola ride from the base area. The expansive lodge at the Sweetwater Gondola mid-station, thoughtfully designed with 12,000 square feet of dining, rental, and the Mountain Sports School home base, is a premiere amenity for our many guests looking to improve their skiing and riding. The building will be open for family après experiences at peak times of the year and available for private events both summer and winter.

TETON VILLAGE ASSOCIATION REDUCES TRAFFIC

Teton Village Association works to reduce traffic to and from Teton Village in the winter because less cars mean fewer wildlife-vehicle collisions, lower carbon emissions, and less vehicle congestion. TVA encourages winter visitors, residents and employees to visit Teton Village with fewer vehicles so we can keep Hwy 390 two lanes for the benefit of wildlife, our neighbors and the environment.
